

TIME MOBILITY AND SUSTAINABILITY

20/04/2023

Online 14.00_16.00 CET

An opportunity
to increase resilience

The Local and Regional TIME Agenda is a pioneering compilation of time policies implemented in a post-COVID era by local, metropolitan and regional authorities from distinct corners of the World.

The Agenda aims to become a guide for those institutions interested in time policies as a tool to transform the society of the 21st century, ensuring the right to time by making it healthier, more egalitarian, more efficient and more sustainable for all.

In particular, the current publication tackles a time-related topic of global relevance: "Time mobility, and sustainability: an opportunity to increase resilience".

The Agenda is coordinated by the Local and Regional Governments Time Network, the unique international network to exchange and promote implementable time policies generated at the local and regional level.

PROGRAMME

- **Official welcome and presentation of the Time Agenda**
 - Marta Junqué, co-Secretariat of the Local and Regional Governments Time Network.
- **Introductory conversation** between:
 - Gabriela Uchoa, Urban Resilience Consultant at **UN-Habitat**.
 - Emmanuel Munch, Research officer for the **French Ministry of Ecological Transition**.
- **Exchange of inspiring cases** on:
 - How to deal with the rush hour?
 - How to encourage a timely, sustainable mobility outside big cities?
 - How to build 15-minute cities?
 - How urban planning can integrate gender and time perspectives?

With the participation of the cities of **Barcelona, Bolzano, Trikala, and Buenos Aires**, the **Metropolitan City of Milan**, the **Catalan Government**, and **Tempo Territorial**.
- **Q&A** by the audience
- **Closing** by Angelo Gennaccaro, Councillor for Digital Innovation and Time Policies at the **Municipality of Bolzano, World Capital of Time Policies 2023**

The event will be facilitated by Caroline Kramer, Human Geographer of **Institute of Geography and Geoecology** (IFGG) and collaborator of the Barcelona Time Use Initiative (BTUI).
