Description:

The presentation of the first two chapters of the local and regional agenda was celebrated online on the 20th of April 2023. The agenda of the event started with an introduction of the key conclusions of both chapters by the secretary of the Local and Regional Governments TIME Network, Marta Junqué.

Following this introduction, Gabriela Uchoa, consultant at UN-Habitat's Global City Resilience Programme and Emmanuel Munch, research officer at the French Ministry for Ecological Transition, held an introductory conversation exploring the relation between time, mobility and urban resilience. In the publication, such a topic is further explored by a reflection on time and urban life, by Charo Morán, Yayo Herrero and Helena Pariente, from Cooperativa Garúa.

After the conversation, a presentation of inspiring cases started. They were aimed at answering three questions, which defined the right to time in relation to sustainability:

- How to deal with the rush hour?
  Lucie Verchère, from Tempo Territorial, presented the cases of the City of Rennes, the European Metropolis of Lille and the Metropolis of Greater Lyon in relation with coordinating mobility schedules.

- How to create 15-minute cities?
  Ariadna Miquel, Director of Urban Strategy at the Barcelona City Council, presented the case of Barcelona Superblocks and their time indicators.
  Sylvia Profanter, Director of the Office for Time and Statistics at the Municipality of Bolzano, presented the case of nearing public services in Bolzano.
- How to encourage a timely, sustainable mobility outside big cities?
  Christina Karamperi, from the Department of Research and Communications at e-Trikala, S.A and the Municipality of Trikala, presented the case of the SMARTA2 project in relation with connecting Trikala's city centre and the rural areas.
  Gabriella D'Avanzo, Project Officer at the Metropolitan City of Milan, presented the case of the Cambio project, in relation to creating a bike lane infrastructure connecting the metropolis.
  Josep Mª Fortuny i Olivé, Deputy Director-General for Transport Organisation, presented the case of Exprés.cat as a public transportation service that connects different regions within Catalonia with their capital city.

After the presentations, there was a Q&A space for the public to ask questions and exchange ideas. The whole event was closed by the councillor of the city of Bolzano, Angelo Gennaccaro, partner in the Time4All project and World Capital of Time Policies for 2023.
